Communication Between the Human
and the Machine

TURAN MÜHENDİSLİK
ve Elektrik San. Tic. A.Ş.

ÖNEMLİ BİLGİ

Bu ürünlerin üretiminde metal enjeksiyon press döküm tekniği kullanılmamıştır. 6000 Series alüminyum talaşlı imalat tercih edilmiştir. Kırılma ve sarkma yapmaz. Uygulamalarınızda güvenle kullanabilirsiniz.

Important Information :

Metallic injection press casting technique is not used in producing of these products. 6000 series aluminium machining production is preferred. No splitting or sagging, you can safely use in your implementations.

Hareketli modüllerde dönüş kabiliyetini sınırlandırma özelliği

Delimitting of swing ability feature in moving modules.

Kablo Yoğunluğu Fazla, Uzun Konfigürasyonlar, Ağır Yükler için,
For long configurations with dense cables, heavy goods,

OPKOL XL Endüstriyel Seri Industrial Series

XL TP KABLO KANALI

Yan plastik kapaklarının açılır olması, kabloların görerek döşenmesini sağlar.

Cable Channel

A the plastic covers on the sides can be opened, that makes cables visible to be laid.

Kablo Yoğunluğu Az, Kısa Konfigürasyonlar, Hafif Yükler için,
For short configurations with less dense cables, lightweight goods,

OPKOL L Endüstriyel Seri Industrial Series

L TP KABLO KANALI

Yan plastik kapaklarının açılır olması, kabloların görerek döşenmesini sağlar.

İÇ ÜNİTE MONTAJLAMA

Ambalaj içerisindeki gezer somunları (M5/M6) aparatı yardımı ile köşe kısımlardan kanallara takıp istediğiniz ekipmanı ürün içerisine montajlayabilirsiniz.

Inside Unit Assembly

You can assemble equipment you want to insert the product into the corners of the channel with the help of the apparatus (MB/M6) floating in the nuts packaging.

- ☒ Şık tasarım
- ☒ İstenilen ölçüde özel üretim
- ☒ Açılır arka kapak
- ☒ Modüler ön kapak
- ☒ %100 alüminyum
- ☒ Eloksal kaplama
- ☒ Modüler yapısı sayesinde taşıyıcı kol systemsiz uygulamalarınıza da cevap verir.
- ☒ %100 yerli üretim

- ☒ Stylish design
- ☒ Desired degree of specialized
- ☒ Production
- ☒ Openable back cover
- ☒ Modular front cover
- ☒ %100 Alüminium
- ☒ Anodized covering
- ☒ %100 domestic production

OPKOL Hakkında;

Firmamız 2004 yılında İstanbul İkitelli Organize Sanayi Bölgesinde kurulmuştur. Opkol firması, otomotiv, makine, elektrik endüstrilerine yönelik yüksek kaliteli mamül ve yarı mamül üretimi yapmaktadır.

About OPKOL;

Our company was established in Istanbul İkitelli Organized Industrial Zone in 2004. Opkol Company, is making high qualified finished and semifinished products for Automotive, Machinery and Electrical Industries.
